

WARRANTY

The system HS-221 from **HUMITAT-STOP S.L.** has a performance warranty of 15 years from the purchase date. This warranty only covers transport and re-works in our facilities, after previous acceptance by writing of the repair.

This warranty does NOT cover damages caused by humidity along time while the system is broken down or out of order.

The effectiveness of this equipment to reduce humidity that rises up walls by capillarity from the subsoil is supported by this warranty document. Although the humidity reduction depends on wall constitution and materials, in normal conditions humidity is reduced by more than 70% in 9 months.

This equipment is harmless for the health and it is certified by International recommendations, ICNIRP, 1999/519/EC, Royal decree 1066/2001, and European Directive 2004/40/CE, UNE-EN 61000-6-3:2007part 6-3, IEC 61000-6-3:2006, and FCC rules (CFR part 15):2008 subpart B.

If after 1 year and before 2 years, you are NOT satisfied with the system results, we return the amount paid provided causes of warranty loss do not appear and the equipment is always on. The equipment has an internal controller about operating time and time off.

The external power supply has 2 year warranty.

The warranty is lost if:

- The equipment is opened and any seal is violated.
- Visible knock in the case.
- Installation is not performed according to low voltage current standards, and the stipulated on the installation manual.
- The equipment receives an electric overload due to lighting or electrical company error.
- Liquid penetrates inside the system.
